

Liability Insurance Policy for European Inland Craft

We are delighted to announce our new [Liability Insurance Policy for European Inland Craft](#).

These conditions are in line with all other 'all risk' policies issued by the Club and will be available to Members entered via the EUROP&I fixed facility (European inland trading vessels only). It incorporates the Marine Insurance Act without exclusions in order to offer Members the most comprehensive cover possible.

If you have questions with regards to the new policy wording, please do not hesitate to contact the Club or EUROP&I:
